624 Shelby Rd
Everman, TX 76140
Office: 817-426-6250
Fax: 817-293-6251

Dear Potential Customer:

I would like to introduce my company, Creative Ice.

Creative Ice is a family owned and operated business in Burleson, Texas. We supply banquet halls, country clubs, hotels, and restaurants with the finest ice carvings. And, we can add a touch of class to any of your events, such as weddings, anniversaries, holiday parties, and much, much more...

Dale Pierce is a Certified Executive Chef who has been carving ice for over 20 years. He is a member of the National Ice Carving Association and the American Culinary Federation. All of his ice carvings are created with traditional tools for that professional look.

Are you looking for some COOL ideas for a buffet centerpiece? How about a large ice seashell to hold your shrimp cocktail or an elaborate wine rack made entirely out of ice! We can even carve a sled to hold your holiday goodies or a large ice vase to display a floral arrangement. Creative Ice will work with you to add that special touch to your event. We can create almost anything you can imagine.

Please check out our web site at creativeicecarvings.com where you can browse through our gallery and get some ideas. We're sure you will see some designs you will love. We'd be happy to provide ice carvings for your next event. Just give us a try!

CREATIVE ICE – Serving the Dallas/Ft. Worth Metroplex for all its ice carving needs.

Sincerely,
Dale Pierce

THE “COOL” CHOICE

Creative Ice

- Question: How long does the ice carving last?
Answer: Generally, an ice carving lasts from 4 to 6 hours. This will change depending on the temperature of the room and the location. Most carvings will lose some detail, but will outlast most functions / events. The carvings are delivered in a freezer trailer to minimize melting before the event.
- Question: What is the size of the ice carving?
Answer: A single block of ice is approximately 40" high, 20" wide and 10" deep. The carving size will be dependent on the design chosen, but as close as possible to the original block size.
- Question: Does Creative Ice deliver?
Answer: Yes, Creative Ice delivers in the Dallas/Fort Worth Metroplex and there is a delivery charge. The local delivery charge is \$25.00 (within a 25 mile radius from Burleson) and an additional \$1.00 per mile beyond the local delivery area.
The carvings are delivered in a freezer trailer to minimize melting before the event.
- Question: How is the ice carving displayed?
Answer: The ice carving is delivered with a disposable tray and drain hose. Creative Ice will setup the carving in the tray surrounded by chunks of ice at the base of the carving.
- Question: Are there any other accessories available?
Answer: The ice carving and tray can be setup on a box with lights, which illuminates the ice from beneath the carving. There are assorted display boxes and colored lights available. Also, greenery and flowers can be arranged.
- Question: Are there any discounts available?
Answer: Discounts are available on orders of multiple blocks of ice.
- Question: Can I create or suggest my own design for Creative Ice to carve?
Answer: Yes, Creative Ice will work with the customers to produce any carving to complement their event.
- Question: Who removes the ice carving at the end of the event?
Answer: Creative Ice will remove the ice when a lighted box has been provided, and it is included as part of the setup and delivery fee. Otherwise, when the disposable tray is used, the customer makes their own arrangements to remove the ice.
